Subject: **Fifth Report: COVID-19 Homelessness Roadmap Funding Recommendations**

SUMMARY

On September 9, 2020, the City Council approved funding for the initial projects under the COVID-19 Homelessness Roadmap and directed the City Administrative Officer to submit funding recommendations for projects via reports. This is the fifth funding report related to the COVID-19 Homelessness Roadmap (Roadmap). This report recommends funding for two (2) new interim housing sites in Council Districts 5 and 14 with 284 beds, and 268 previously unfunded interim beds operated by various service providers, for a total of 552 new and ongoing beds for the Roadmap. Funding to extend 324 winter shelter beds, given the on-going COVID safety concerns, is also proposed. This report also recommends funding for an eight-month Safe Sleep pilot site with 70 spaces in Council District 13.

This report substitutes Homeless Housing, Assistance, and Prevention Program (HHAP) funding with Coronavirus Relief Funds (CRF), given the CRF extension to December 31, 2021, for eight (8) previously approved interim housing sites. Additional rehabilitation funding for 14 Project Homekey sites and two (2) of the three (3) sites purchased in Council District 9 is also included. This report further clarifies previously approved recommendations and requests the contract and other authorities to effectuate the entirety of the recommendations.

If the recommendations in this report are approved, 100 percent of the capital funding allocated to the Homelessness Roadmap in Fiscal Year (FY) 2020-2021 will be fully committed.

RECOMMENDATIONS

That the City Council, subject to approval by the Mayor:

1. DETERMINE the Crisis and Bridge Housing facility located on the easterly portion of APN# 5492-021-900, Arroyo Seco (Arroyo Drive and Avenue 60), which allows for the lease of a

DISCUSSION

CITY'S COMMITMENT TO THE HOMELESSNESS ROADMAP

The City of Los Angeles (City) reached an agreement with the County of Los Angeles (County) on June 16, 2020, to develop an additional 6,700 homeless interventions in the City COVID-19

Homelessness Roadmap (Roadmap) to address the COVID-19 emergency within 18 months. This agreement establishes the following milestones:

- 700 beds in existing agreements with the County within 10 months;
- 5,300 new beds within 10 months; and
- 700 new beds within 18 months.

6,000 of these beds must be new beds, which are not included in any existing agreements between the City and the County. The County has committed to providing \$60 million in services per year over five (5) years for a total of \$300 million or half of the estimated \$600 million cost for these beds over the five (5) year term of the agreement. The target population for this effort includes:

- People experiencing homelessness and living in the City within 500 feet of freeway overpasses, underpasses and ramps;
- People experiencing homelessness within the City who are 65 years of age or older; and
- Other vulnerable people experiencing homelessness within the City of Los Angeles.

As of March 10, 2021, up to 8,810 invention have been approved. 2,919 of these are completed, 2,831 are in progress, and 3,000 are rapid rehousing/shared housing interventions being implemented by LAHSA.

FUNDING RECOMMENDATIONS

Interim Housing

This report recommends funding for two (2) new interim housing sites with 284 beds. \$7,173,096 is proposed for the construction of a Tiny Home Village with 224 beds at Arroyo Drive and Avenue 60, a Recreation and Parks Department site, in Council District (CD) 14. An additional, \$3,732,920 is recommended for services/operations through June 30, 2022 (\$3,720,640), and for furniture, fixtures and equipment (\$12,280) for this site. \$2,980,444 is proposed for leasing (through June 30, 2025), operations (through June 30, 2022) and furniture, fixtures, and equipment, for a permanent site with 60 beds at 7253 Melrose in CD 5. Authorization is also requested for the Department of General Services (GSD) to negotiate and execute a lease with the owner of 7253 Melrose for a period of up to five (5) years. The Bureau of Engineer (BOE) has conducted a California Environmental Quality Act (CEQA) analysis for these sites and transmitted this analysis under separate cover. The Mayor and City Council must approve BOE's determination that these uses are categorically exempt from CEQA.

This report also replaces \$17,560,289 in Homeless Housing, Assistance, and Prevention Program (HHAP) with Federal Coronavirus Relief Fund (CRF) funds, given the CRF expenditure deadline extension to December 31, 2021, to eight (8) previously approved interim housing sites as outlined in Table 1 below.

In addition, the report recommends \$378,314 for leasing costs through June 30, 2024 for the previously approved Tiny Home Village site at 1455 Alvarado Street in CD 13.

Unfunded Beds/Interim Housing

The City Administrative Officer (CAO) requested that the Los Angeles Homeless Services Authority (LAHSA) survey service providers to identify unfunded interim housing beds that could be funded and added to the Roadmap. 268 beds have been identified at six (6) sites. \$1,389,115 is being recommended to fund these beds from April 1, 2021 through June 30, 2021, as outlined in Table 2. The funding for next FY will be included in the next Roadmap funding report.

Extension of Winter Shelter Beds

This report recommends \$2,766,349 for the extension of 324 winter shelter beds given the on-going COVID-19 safety concerns. These beds will be added to the Roadmap during the extension period, either April 1 – May 31, 2021 or April 1 – October 31, 2021, depending on the site and service provider availability. The sites, extension period, and funding recommendations are outlined in Table 3 and 4 below.

These beds will have to be replaced with new beds at the end of the extension period to maintain the City's bed commitment as outlined in the City-County agreement.

Pilot Safe Sleep Site

This report includes a recommendation of \$1,491,410 for an eight-month pilot 70-space safe sleep site at 317 North Madison Avenue in CD 13, from April 16, 2021 through December 31, 2021. It is recommended that the GSD be authorized to negotiate and execute a no-cost lease with the owner of this site, which is scheduled to break ground for a permanent supportive housing project in early 2022. The goal of the Safe Sleep Village program is to provide a low-barrier, harm reduction intervention that mitigates the risks of living in encampments. Clients will enter the Safe Sleep Village with their tents, and any other belongings that can fit in a designated 12-foot by 12-foot area. One of the expected benefits of the Safe Sleep Village Program is to reduce the time between when a client is matched to permanent housing and when the client moves in.

Because this site is a flat, paved surface, with sewer access in the right of way, existing access to power and water, and a fire hydrant located within 300 feet, it allows the City to quickly establish the site with over-the-counter, permitting requirements from the Department of Building and Safety and the Los Angeles Fire Department.

The site will be operated by Urban Alchemy under a contract with LAHSA. Urban Alchemy will enter clients into the Coordinated Entry System (CES), and connect residents to outreach workers, case management, and housing navigators within the homeless services system. The scope of services includes: client intake and care coordination, custodial and sanitation services within the site and surrounding area, de-escalation interventions to help manage mental health episodes, reverse overdose events, prevent or disrupt violence and crime, and monthly reporting on key placements and other metrics. The Safe Sleep Village model, as implemented by Urban Alchemy, is heavily staffed with practitioners with special de-escalation skills critical to ensuring that sites run smoothly. These practitioners are also responsible for security, and perform the other activities in the scope of services above. The staffing plan Urban Alchemy recommends for a successful program is a minimum staff-to-participant ratio of one (1) to 12.

The cost per participant is \$21,306 for the eight -month operating period. Data reporting for the pilot will include metrics to assess the effectiveness of this program as an alternative to encampments, to be determined by CD 13, LAHSA, the CAO, and Urban Alchemy, prior to the start of services.

Given the program's high cost, we recommend that the data outcomes/effectiveness of the program be reported on by the CAO and LAHSA before initiating additional sites.

Project Homekey Sites

The City, with the Housing Authority of the City of Los Angeles' assistance and matching funds from the State of California, purchased 10 Project Homekey sites. The City purchased five (5) additional motels/hotels with its CRF monies and no State match. The 15 Homekey sites have 826 rooms. The City also used CRF to purchase three (3) commercial sites in Council District 9.

This report recommends \$11,236,203 in additional rehabilitation, based on a more thorough assessment of the sites by the owner/operators and a determination by the Los Angeles Fire Department that two (2) of the sites need to add fire sprinklers. This increases the rehabilitation allocation to \$16,515,094 as outlined in Table 5 below. The remaining Emergency Solutions Grant –COVID balance of \$153,894 will be reserved for Homekey site rehabilitation needs.

		TOTAL	\$5,278,891	\$11,236,203	\$16,515,094

This report also recommends the National Health Foundation as the owner/operator the Woodman Homekey site at 9120 Woodman Avenue, and requests that LAHSA execute a contract with the National Health Foundation for the previously approved \$3,825,250 in ESG-COVID (\$397,200 for rehabilitation and \$3,428,050 for operations through June 30, 2022).

The CAO will report on the total costs for all Project Homekey sites in the next funding report.

Council District 9 Sites

The City also used its CRF monies to allow the Coalition for Responsible Community Development (CRDC), Volunteers of America of Los Angeles (VOALA), and Neighborhood Housing Services of Los Angeles County (LANHS)/Ward Economic Development Corporation acquire three (3) commercial properties in CD 9 for interim and/or permanent housing. This report recommends funding of \$3,406,547 for rehabilitation for the VOALA site at 2521-2525 Long Beach Boulevard, \$2,043,164 for rehabilitation for the LANHS/WARD site at 1300-1332 West Slauson Avenue and \$2,007,500 for services for 100 interim beds through June 30, 2022, and the authority to effectuate these contracts, including having the BOE serve as the project manager for these contracts.

After further assessment, it was determined that it was infeasible to convert the CRDC site at 2300, 2312, 2320, 2324 and 2332 South Central Avenue into interim housing in the short-term, given the historic nature of the site and the cost involved. This report, therefore, requests authority to renegotiate the terms of the City's agreement with CRDC to allow the organization to convert the site into permanent supportive and affordable housing immediately.

Other Funding Recommendations/Clarifications

Scattered Site Beds in Skid Row

On March 2, 2021, the Mayor and Council approved recommendations from the Homelessness and Poverty Committee relative to the State of California Homeless Emergency Aid Program (HEAP) Eighth Quarterly Expenditure Report (C.F. 18-0628). These recommendations included approval of \$311,229.60 in HEAP funding for the Downtown Women's Center to provide financial assistance and supportive services for 60 slots of Rapid Rehousing at single room occupancy (SRO) hotels operated by SRO Housing Corporation for four months from March 1, 2021 through June 30, 2021. Since these recommendations were approved, it has been determined that it is more efficient for SRO Housing Corporation to administer these funds directly, rather than providing the funds through Downtown Women's Center. This report provides recommendations necessary to effectuate this change.

CD 10 A Bridge Home Site

This report reappropriates the remaining balance of \$150,000 for FY 2021-22 from the previously approved \$300,000 in AB1290 funds to cover operations at the interim housing site at 1819 South Western Avenue in CD 10.

CRF Funding for Acquisition

Although not addressed in the recommendations in this report, \$900,000 in CRF monies allocated to the Homelessness Roadmap is pending approval via Council Motion introduced on March 17, 2021 (Council File pending). These funds will allow the Coalition to Abolish Slavery and Trafficking (CAST) to acquire a permanent shelter site with 19 beds to serve victims of human trafficking who are experiencing homelessness in CD 5. These beds will be accounted for in the Homelessness

Roadmap.

Contract Authority

Finally, this report transfers the project management for the interim housing site at 18140 Parthenia Blvd in CD 12 to BOE, and requests that the both LAHSA and the Housing and Community Investment Department (HCID) amend its contracts as appropriate to effectuate the recommendations in the report.

FUNDING STATUS

Attachment 1 outlines the funding status of the capital funding sources allocated to the Roadmap in FY 2020-2021. If the recommendations in this report are approved, the current capital allocations will be 100 percent committed.

FISCAL IMPACT

There is no impact to the General Fund as a result of the recommendations in this report at this time. The recommendations in this report will be funded with CARES Act, HEAP, and the County of Los Angeles service funding commitment in FY 2020-21 and FY 2021-22. The next funding report will outline the status of service funding for the term of Memorandum of the Understanding between the City and the County, and the outstanding City liability starting in FY 2022-23.

FINANCIAL POLICIES STATEMENT

The recommendations in this report comply with the City Financial Policies.
