LOS ANGELES TIMES POLL
METHODOLOGY

This Los Angeles Times poll is the 487th in a series of opinion studies designed to measure public attitudes on a number of issues. This survey focuses on California's special election to recall Governor Gray Davis.

The sampling frame for this survey is all telephone residences in the state of California. Two thousand two hundred and forty-nine men and women 18 years of age or older were contacted by telephone September 6-10, 2003. The sample includes 1,560 registered voters of which 922 are considered likely to vote. For analysis purposes, the main sample was supplemented to a total of 121 Latino likely voters and the samples were weighted to their proper proportions within the state. African Americans and Asian Americans are part of the overall sample, but there were not enough to break out as separate subgroups.

Results are adjusted to conform with census figures on characteristics such as sex, race, age, education as well as to the latest registration figures provided by the secretary of state's office. Telephone numbers were generated from a computer list that includes all possible telephone exchanges in the state. Random-digit dialing techniques were used to ensure that both listed and unlisted residences had an opportunity to be contacted. Interviews were conducted in both English and Spanish. Field work for the random Latino sample was conducted by Datascension, Inc., of Brea, California.

Readers are reminded that, since survey research normally questions only a small proportion of the population, one must allow a certain margin for error. The margin of sampling error for the entire sample, registered and likely voters is plus or minus 3 percentage points. Margin of sampling error for Latino likely voters is plus or minus 9 percentage points. For certain other subgroups, the error margin is somewhat higher.

Surveys of this kind are sometimes subject to different kinds of inaccuracies for which precise estimates cannot be calculated and which may, in some cases, be even larger than the effects associated with sampling procedures. For example, findings may be influenced by events, which take place while the survey is in the field and, of course, events occurring since the time the interviews were conducted could have changed the opinions reported here. For example, Peter Ueberroth retired from the race on Tuesday, September 9 while this survey was being conducted.

Undetected flaws in the way the sampling and interviewing procedure were carried out could have a significant effect on the findings. Changing the wording of questions and the sequence in which they are asked can produce different results. Sometimes questions are inadvertently biased or misleading. People who responded to the survey may not necessarily replicate the views of those who refused to be interviewed or who could not be found at home during the time the survey was conducted. Moreover, while every precaution has been taken to make these findings completely accurate, other errors may have resulted from the various practical difficulties associated with taking any survey of public opinion.

Susan Pinkus directs the Los Angeles Times Poll under the general supervision of Dean Baquet, managing editor. Jill Darling Richardson is the associate director, Roger Richardson is the field director, Claudia Vaughn is the data management supervisor and Ray Enslow is the publications coordinator.

Q5.

As you may know, there will be a special election to recall Governor Davis on October 7th. The recall ballot measure will consist of two parts. The first part will be a YES or NO vote on whether to recall the governor. The second part will list candidates running to replace Davis if he is recalled.

If the October 7th special recall election were being held today, would you vote YES to recall Governor Davis or would you vote NO, not to recall Governor Davis? (IF "DON'T KNOW," "HAVEN'T HEARD ENOUGH" OR "REFUSED," ASK) Well, as of today, do you lean more toward voting YES to recall Governor Davis or do you lean more toward voting NO, not to recall Governor Davis? PREQ27.

Many people tell us they don't always get to vote in every election. Sometimes they are prevented by illness or emergencies, or sometimes they don't have a preference for any candidate, or sometimes they are not interested in that particular election, or sometimes they have no way to get to the polls... and there are often other reasons.

.

Q27.

Specifically, do you remember for certain whether or not you voted for California governor, other statewide offices or for any of the ballot initiatives in the March 2002 primary, or did something prevent you from voting, or did you choose not to vote? (IF VOTED IN CALIFORNIA) For whom did you vote

for governor: Bill Jones, a Republican, or Richard Riordan, a Republican, or Bill Simon, a Republican, or Gray Davis, a Democrat, or did you vote for someone else? (IF PREVENTED FROM VOTING) Were you old enough to vote in March 2002, or not? (IF WASN'T A CALIFORNIA RESIDENT, ASK) Well, did you vote in the last gubernatorial primary in another state, or not?

Q36.

As you may know, former Governor Pete Wilson and many of the top advisors from his administration are now advising Arnold Schwarzenegger in his campaign to replace Gray Davis as governor. Does knowing this fact make you more or less likely to vote for Schwarzenegger or does it not make much difference one way or the other? Q37.

As you may know, Proposition 13 -- the property tax initiative that passed in 1978 -- limits the rate at which property taxes in California are allowed to increase. Some candidates campaigning to replace Gray Davis as governor argue that the state budget would be more stable if Proposition 13 were amended to allow taxes on commercial properties to increase while not changing Prop. 13 tax rates for homeowners. Those opposed to raising property taxes argue the state should be able to balance its budget without raising any property taxes.

Would you be in favor of or opposed to amending Proposition 13 to allow commerical property taxes to increase? (IF IN FAVOR OF/OPPOSED TO) Would you be strongly (in favor of/opposed to) to this or only somewhat?

Now I am going to read some comments that have been made about several of the candidates campaigning to replace Gray Davis as governor, and some comments about Gray Davis. Some people agree with these comments while others do not. Please tell me for each one whether you agree or disagree with the comment. If

you haven't heard enough about them to say you can tell me that, too. First,
