Note: Numbers may not total 100% where some answer categories are not shown. Poll results can be found at: www.latimes.com/timespoll

How the poll was conducted: The Los Angeles Times Poll interviewed 3,679 voters as they exited 64 polling places across California Tuesday, Nov. 7. Precincts were chosen based on the pattern of turnout in past statewide elections. The survey was a self-administered, confidential questionnaire in English and Spanish. The margin of sampling error for the entire sample is plus or minus 2 percentage points; for some subgroups, the error margin may be higher. The survey was adjusted to account for absentee voters and those who declined to participate when approached, using actual returns, demographic estimates collected by interviewers and a pre-election survey of absentee voters. Interviews were conducted by Davis Research of Calabasas.
