Dear Mr. Gennette,

We are a diverse group of civic, business, labor and community leaders from throughout San Diego who are highly disappointed to learn in the San Diego Union Tribune of your company's legal actions against the Campus at Horton redevelopment project and its owners, Stockdale Capital.

Our community has long sought a plan that will overhaul the existing Horton Plaza mall and Horton Plaza Park into a thriving mixed-use community asset, which is exactly what the proposed redevelopment will provide. We the undersigned parties are all strong supporters of the Campus at Horton and are concerned your company's legal action will significantly and unnecessarily slow or even stop this transformative project.

On behalf of the San Diego community, we urge you to work swiftly with Stockdale Capital Partners to resolve any concerns and provide a resolution that will allow Horton Plaza to be redeveloped without delay.

Thank you,

Honorable Todd Gloria  
California State Assembly
